

Kislingbury CEVC Primary School

Sports Funding 2016 /17

The school received £ 8,640.00 for 2016/17 academic year to support pupils.
In addition the school had carried forward £ 8,664.00 from the previous accademic year.

This money was allocated into the following budgetary areas:

- Continued development of the REAL PE scheme in school including staff training on Real Gymnastics
- Membership of Secondary School Sports Federation with all cluster schools
- Purchase of a whole school P.E attendance tracker
- P.E. Equipment (Curriculum resources and Lunchtime activity)
- Playground activity equipment and new playground markings
- Daily provision of Fruit for KS2 in line with Healthy School initiative
- Payment to a private company to provide a lunchtime activcity club and dance coaching for teaching staff.

Payment to Support Staff to run both an after school club and to start a 'Get Started' healthy living club which provides breakfast and activities.

| Playground Marking | £ 3,120.00 |
| Get Started' Club | £ 2,000.00 |
| Total | £ 13,720.31 |

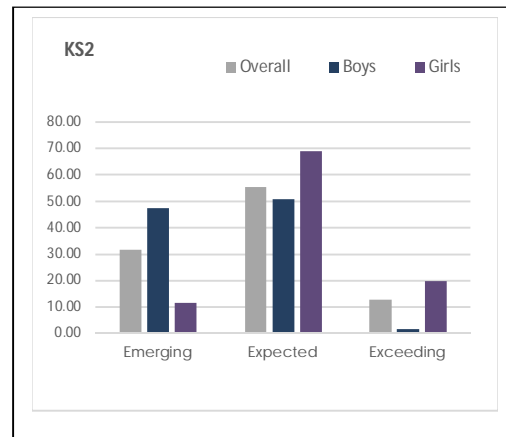

Results of actions this year

Quality of PE provision: We had a new PE lead teacher join us this year so we arranged for her to be trained both in Real PE and the Real Gymnastics, in addition other staff were trained in the Real Gymnastics. The development of real PE, together with the use of a dance coach to work with each class during the year has again raised the quality of our provision.

Pupil attainment and progress: This has been our third year of using the Real PE scheme of work and assessing through the Symphony Assessment package for PE. It is pleasing that both KS1 and KS2 show a growing consistency and improvements from when the scheme was introduced. Over the three years we have seen a marked improvement of PE provision. As the REAL PE system has become more embedded in the school we have seen improvements in all aspects of our P.E. teaching and learning.

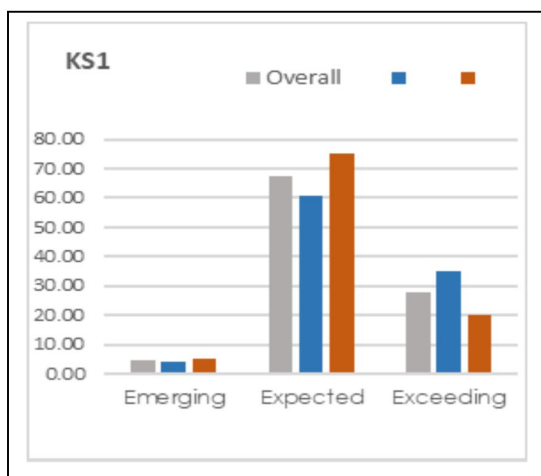

2014 – 2015 End of Year Assessments

2015 – 2016 End of Year Assessments

2016 – 2017 End of Year Assessments

We feel we should grade ourselves as Good in terms of our new Curriculum and there has been marked progress in our provision over the last 24 months – 36 months.

Attendance to out of hours School P.E. based Clubs.

The school is continuing to improve and increase the range of PE clubs we provide before and after school. We were very pleased with the numbers of children attending at least one club. As part of our work with this we also purchased an 'Involvement Tracker'

| Class | EYFS | Y1 | Y2 | Y3 | Y4 | Y5 | Y6 |
|--|------|-----|-----|-----|------|-----|-----|
| Participating in before and after School PE clubs | 65% | 71% | 75% | 64% | 100% | 88% | 87% |
| Represented the school in inter school competition | 0% | 0% | 21% | 48% | 43% | 62% | 87% |

Competition: The school has taken part in numerous sport competitions through membership of the School Sports Partnership with the local cluster including boys and girls Football, Tag Rugby, Indoor Athletics, Tennis, Cricket, Gymnastics and Basketball.

Lunchtime : Further Equipment has been purchased for lunchtime and a coach has been employed to work with the children one lunchtime each week to develop their physical activity levels and encourage a range of sporting activities across all age ranges.

Adventurous Activity: This year again every child in KS2 took some part in external adventure style activities. Part funded through school funding . Year Three and Four have been on a Water Experience Day building rafts, Bell boating and Paddle boarding. Year Five have taken part in a two day residential, which included Rock Climbing, Trampolining, Archery, Tennis, Roller Skating and Fencing. Year Six have had a five day residential which included Mountain biking, Rock climbing, Abseiling, Canoeing, Raft building, High ropes and Team building games.

Swimming: Every year group in KS2 takes part in a swimming sessions each year. There are strong links with an external coach in addition to the links with the Pool provider.

Dance Coach: A dance coach has been working with each class and class teacher for at least a half term over the last two terms. This has not only increased the children and staff's knowledge of dance it also allowed us to run an after school dance club to attract pupils who don't enjoy more conventional sports clubs.

'Get Started Club': Money has been used to pay for a member of support staff to run a morning breakfast and activity club. This has allowed us to target vulnerable pupils in terms of attendance and punctuality and also those with health and weight issues to help develop a routine around breakfast and activity. This has been highly successful and has now been running over 18 months.

Key Stage Two fruit: As part of the school's participation in Northamptonshire's Healthy Child Initiative we decided to add to the current provision of free fruit for our KS1 and Early Years children by purchasing fruit for every child in the school to have at break time.

Playground Development: We had carried a sizable sum through from the previous year in our sports funding to enable us to spend some money on larger playground equipment. Some has been spent on new playground markings which help, not only with playtime and lunch time activities but are also aimed at space management for PE lessons.
