

Hi Everyone.

Hope you all had a lovely Easter. The Easter Bunny left lots of eggs for my girls in our garden and they enjoyed searching for them.

We have started a new topic of Under the Sea this term so my Geography and History lessons are linked to this.

In addition to exploring Scratch I have set you a topic challenge. Have a look in the Computing slides.

Have a lovely weekend.

x

Today's Timetable	Kelmarsh
Lesson 1	Achievement Worship
Lesson 2	Maths
Break	
Lesson 3	Phonics/ Word of the Day
Lesson 4	Geography
Break/ Lunch	
Lesson 5	Computing
Lesson 6	PE

*Parents/carers tip:
this follows our
typical daily
timetable*

Achievement Worship

What have you done this week that has made you a star?

What super learning have you done?

Parents/carers tip: Share your successes this week. Maybe talk about what went well and what didn't. Can you plan anything you would like to do next week?

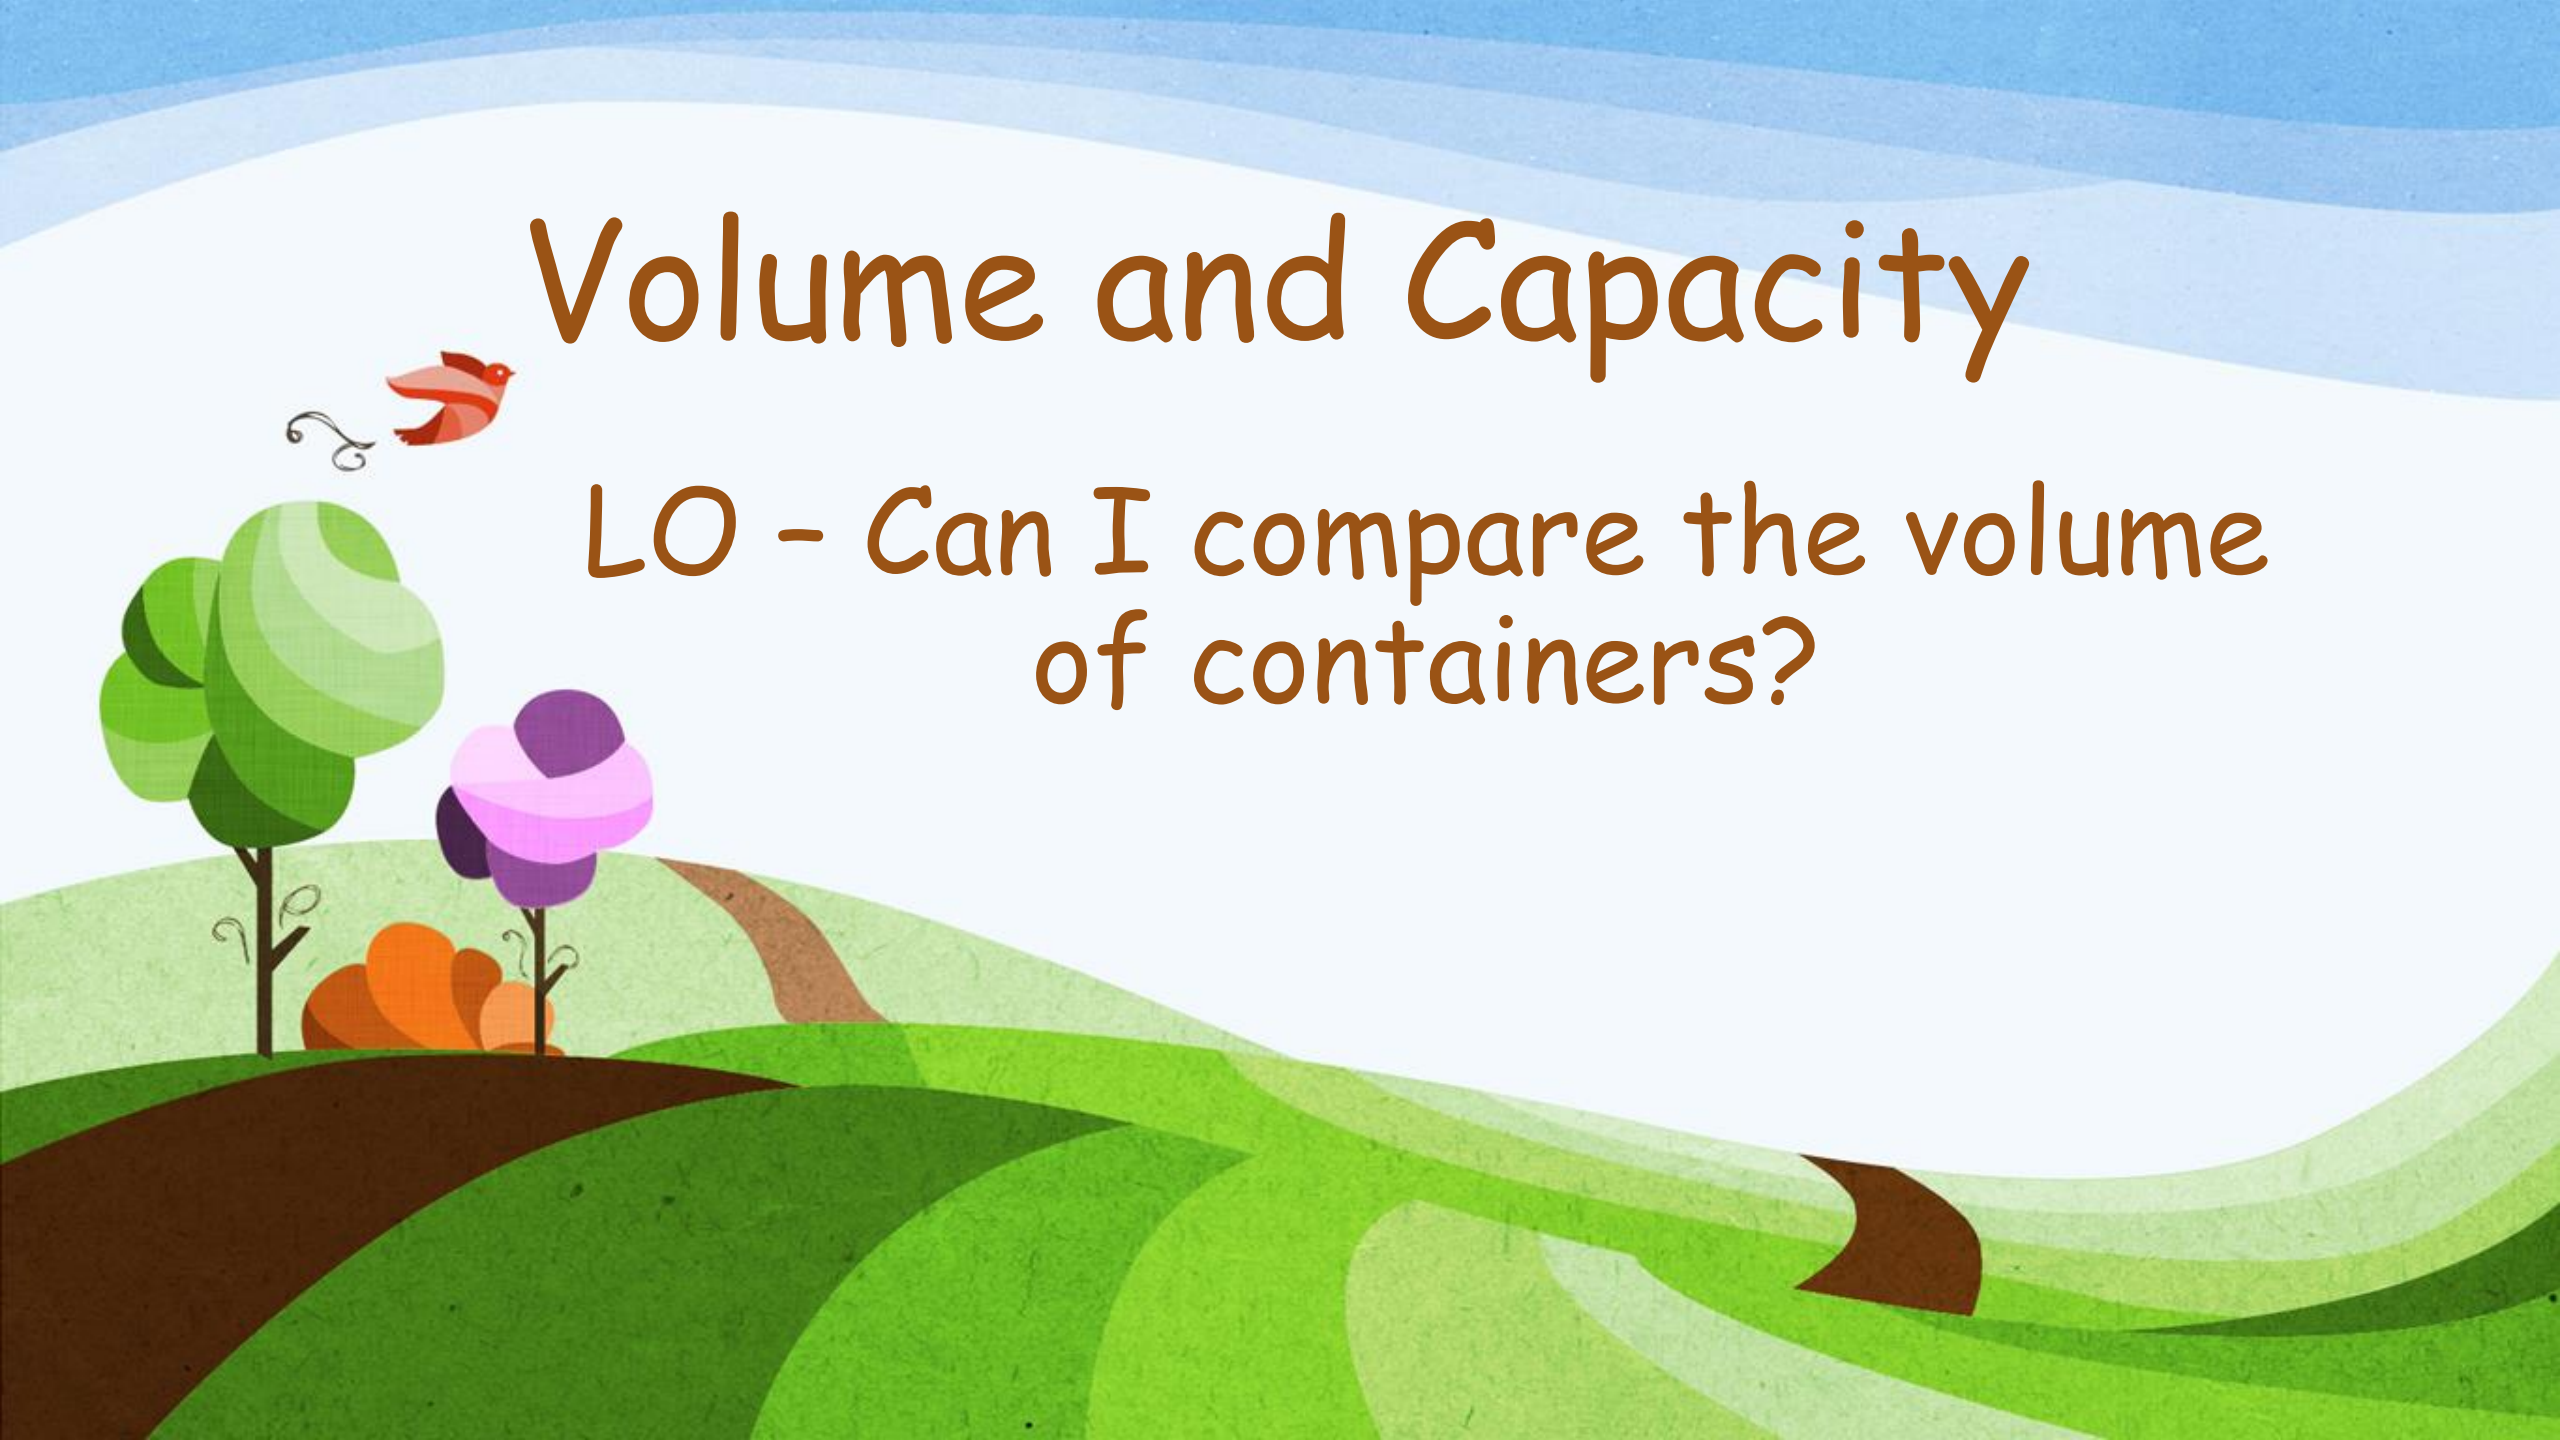

Maths

*Parents/carers tip: we are now moving into our
maths class*

Volume and Capacity

LO - Can I compare the volume of containers?

What is the Difference Between Volume and Capacity?

*Capacity is the amount a container can hold.
Volume is the amount a container is actually holding.*

Time to Explore

Find three different containers e.g. bucket, bowl, bottle or cup. Which container has the largest/smallest capacity? How do you know? Can you order them from largest to smallest?

Parents/carers

Encourage your child to explain how they know. Question their thinking with questions like does the tallest container always hold the most?

Time to Explore

Using water or rice, make each container one quarter full, half full and three-quarters full.

Parents/carers

This is a recap of year one capacity work.

Question Time

Complete the sentences:

The bottle can fill _____ mugs.

The pot can fill _____ mugs.

Use other containers to investigate how many mugs of rice they take to fill.

Parents/carers

The bottle can fill 2 mugs. The pot can fill 6 mugs.

You can use water or rice to investigate how many mugs it takes to fill different containers. Can they then order the containers?

Whitney had two full bottles of juice.
She poured some juice into two glasses.

Which glass has the most juice in?
Which has the least juice in?
Explain how you know.

Parents/carers

Glass A has the least juice in and Glass B has more juice in. Bottle A has more juice left over which means it has less juice poured out.

Choose a selection of different sized containers.

Decide how you will measure how much liquid each container can hold.

Order your containers from smallest to largest.

Compare the containers using $<$, $>$ or $=$

Parents/carers

Children have used the signs $<$, $>$, and $=$ on many different occasions they should be familiar with what they mean.

Phonics/ Word of the Day

*Parents/carers tip: we are now moving into our
Phonics class*

LO: Alternative Spelling for c phoneme.

Read the following words what phoneme
(sound) do all these words contain?

cat queen plaque

lick school

kit marquee

Read the following words what phoneme
(sound) do all these words contain?

cat

lick

kit

plaque

school

marquee

Read the following words. Can you identify the c phoneme and how it is spelt in each word? You could copy each word and highlight the c phoneme.

can	sock	milk	crust
cling	chemist	stuck	keep
soak	stuck	coal	headache
skip	ticket	kid	Christmas

Can you think of any of your own?

Practise reading these sentences.

The quick fox kicks like a cat?

Parent/ carers tips:

Can children identify the different spellings for the c phoneme?

Practise reading these sentences.

A box of cookies is quite cool.

Parent/ carers tips:

Can children identify the different spellings for the c phoneme?

Practise reading these sentences.

Can a skunk quack like a duck?

Parent/ carers tips:

Can children identify the different spellings for the c phoneme?

Word of the day

Mrs Maloney

plant
bath
path

Mrs Thornely

usually

Parents/carers tip: Phonics play is free for everyone at the moment – please use the details below to log into the system if you want your child to do extra phonics practise.

- <https://www.newphonicsplay.co.uk>

Coronavirus Update

In response to the ongoing situation, we have decided to make PhonicsPlay free to use during this period. Children can use the site at home without their parents needing to subscribe. To access our resources all you need to do is log on using the following details

Username: march20 Password: home

We are currently very close to completing a new version of the PhonicsPlay site that is accessible on all phones and tablets. We will therefore also ensure that it is possible for users to freely access this new version of the site (with apologies in advance for any areas of the site that are not yet fully finished or double checked). The site can be accessed here: [newphonicsplay.co.uk](https://www.newphonicsplay.co.uk).

Our aim to ensure that existing subscribers aren't disadvantaged and will seek to make sure that after the school closures are over and the site returns to normal, that existing subscribers have additional time added to their subscription.

If you haven't already discovered www.phonicsplaycomics.co.uk you may also find these free decodable comics useful at a time when you can't physically exchange your children's decodable reading books.

We wish you good health and all the very best at this stressful time.

Geography

Can I name the seven continents
of the world?

Recap from Last Term

Can you remember the location on the following countries in the United Kingdom?

England

Scotland

Wales

Northern Ireland

Can you match the Capital Cities to the correct countries?

Cardiff

England

Belfast

Edinburgh

Continents of the World

twinkl

What Is a Continent?

A continent is a very large landmass.
A continent is usually separated by water or other natural features, like mountains.

There are seven continents in the world:

1. Asia
2. Africa
3. North America
4. South America
5. Antarctica
6. Europe
7. Australasia

Let's Find Out More!

Did You Know?

Continents only cover 29% of the Earth. The rest of the Earth's surface is water!

Asia

Asia is the biggest continent in the world.

- 2/3 of the world's population live in Asia.
- Major countries include India and China.
- The Himalayas, the world's tallest mountains, are found here.
- The Dead Sea, the lowest point on land, is also in Asia.
- Asia is home to tigers, monkeys and giant pandas.

Africa

Africa is the second biggest continent in the world.

- Africa has 54 countries, more than any other continent.
- Major countries include Egypt, Nigeria and South Africa.
- Africa has the longest river in the world, the Nile.
- Africa also has the world's biggest non-polar desert, the Sahara.
- In Africa, you will find giraffes, elephants and lions.

North America

North America is the third biggest continent in the world.

- Major countries in North America include the USA and Canada.
- Pumpkin and corn originally came from here.
- North America is home to bears, moose and skunks.

South America

South America is the fourth biggest continent in the world.

- South America only has 12 countries.
- Major countries include Brazil and Argentina.
- The Amazon, the world's biggest rainforest, is found here.
- Tomatoes, potatoes and chocolate all come from South America originally.
- South America is where you will find llamas, sloths and jaguars.

Antarctica

Antarctica is the third smallest continent in the world.

- Antarctica is almost completely covered in ice.
- It is surrounded by the Southern Ocean.
- It is the coldest and windiest continent.
- Each year, hundreds of scientists live and work in Antarctica.
- Antarctica is home to penguins, albatross and seals.

Europe

Europe is the second smallest continent in the world.

- Europe is the most densely populated continent. It has 44 countries altogether.
- Major countries include France, Germany and the United Kingdom.
- Apples, pears and raspberries all originally come from Europe.
- The majority of Australians have ancestors from Europe.
- Europe is home to foxes, wolves and bears.

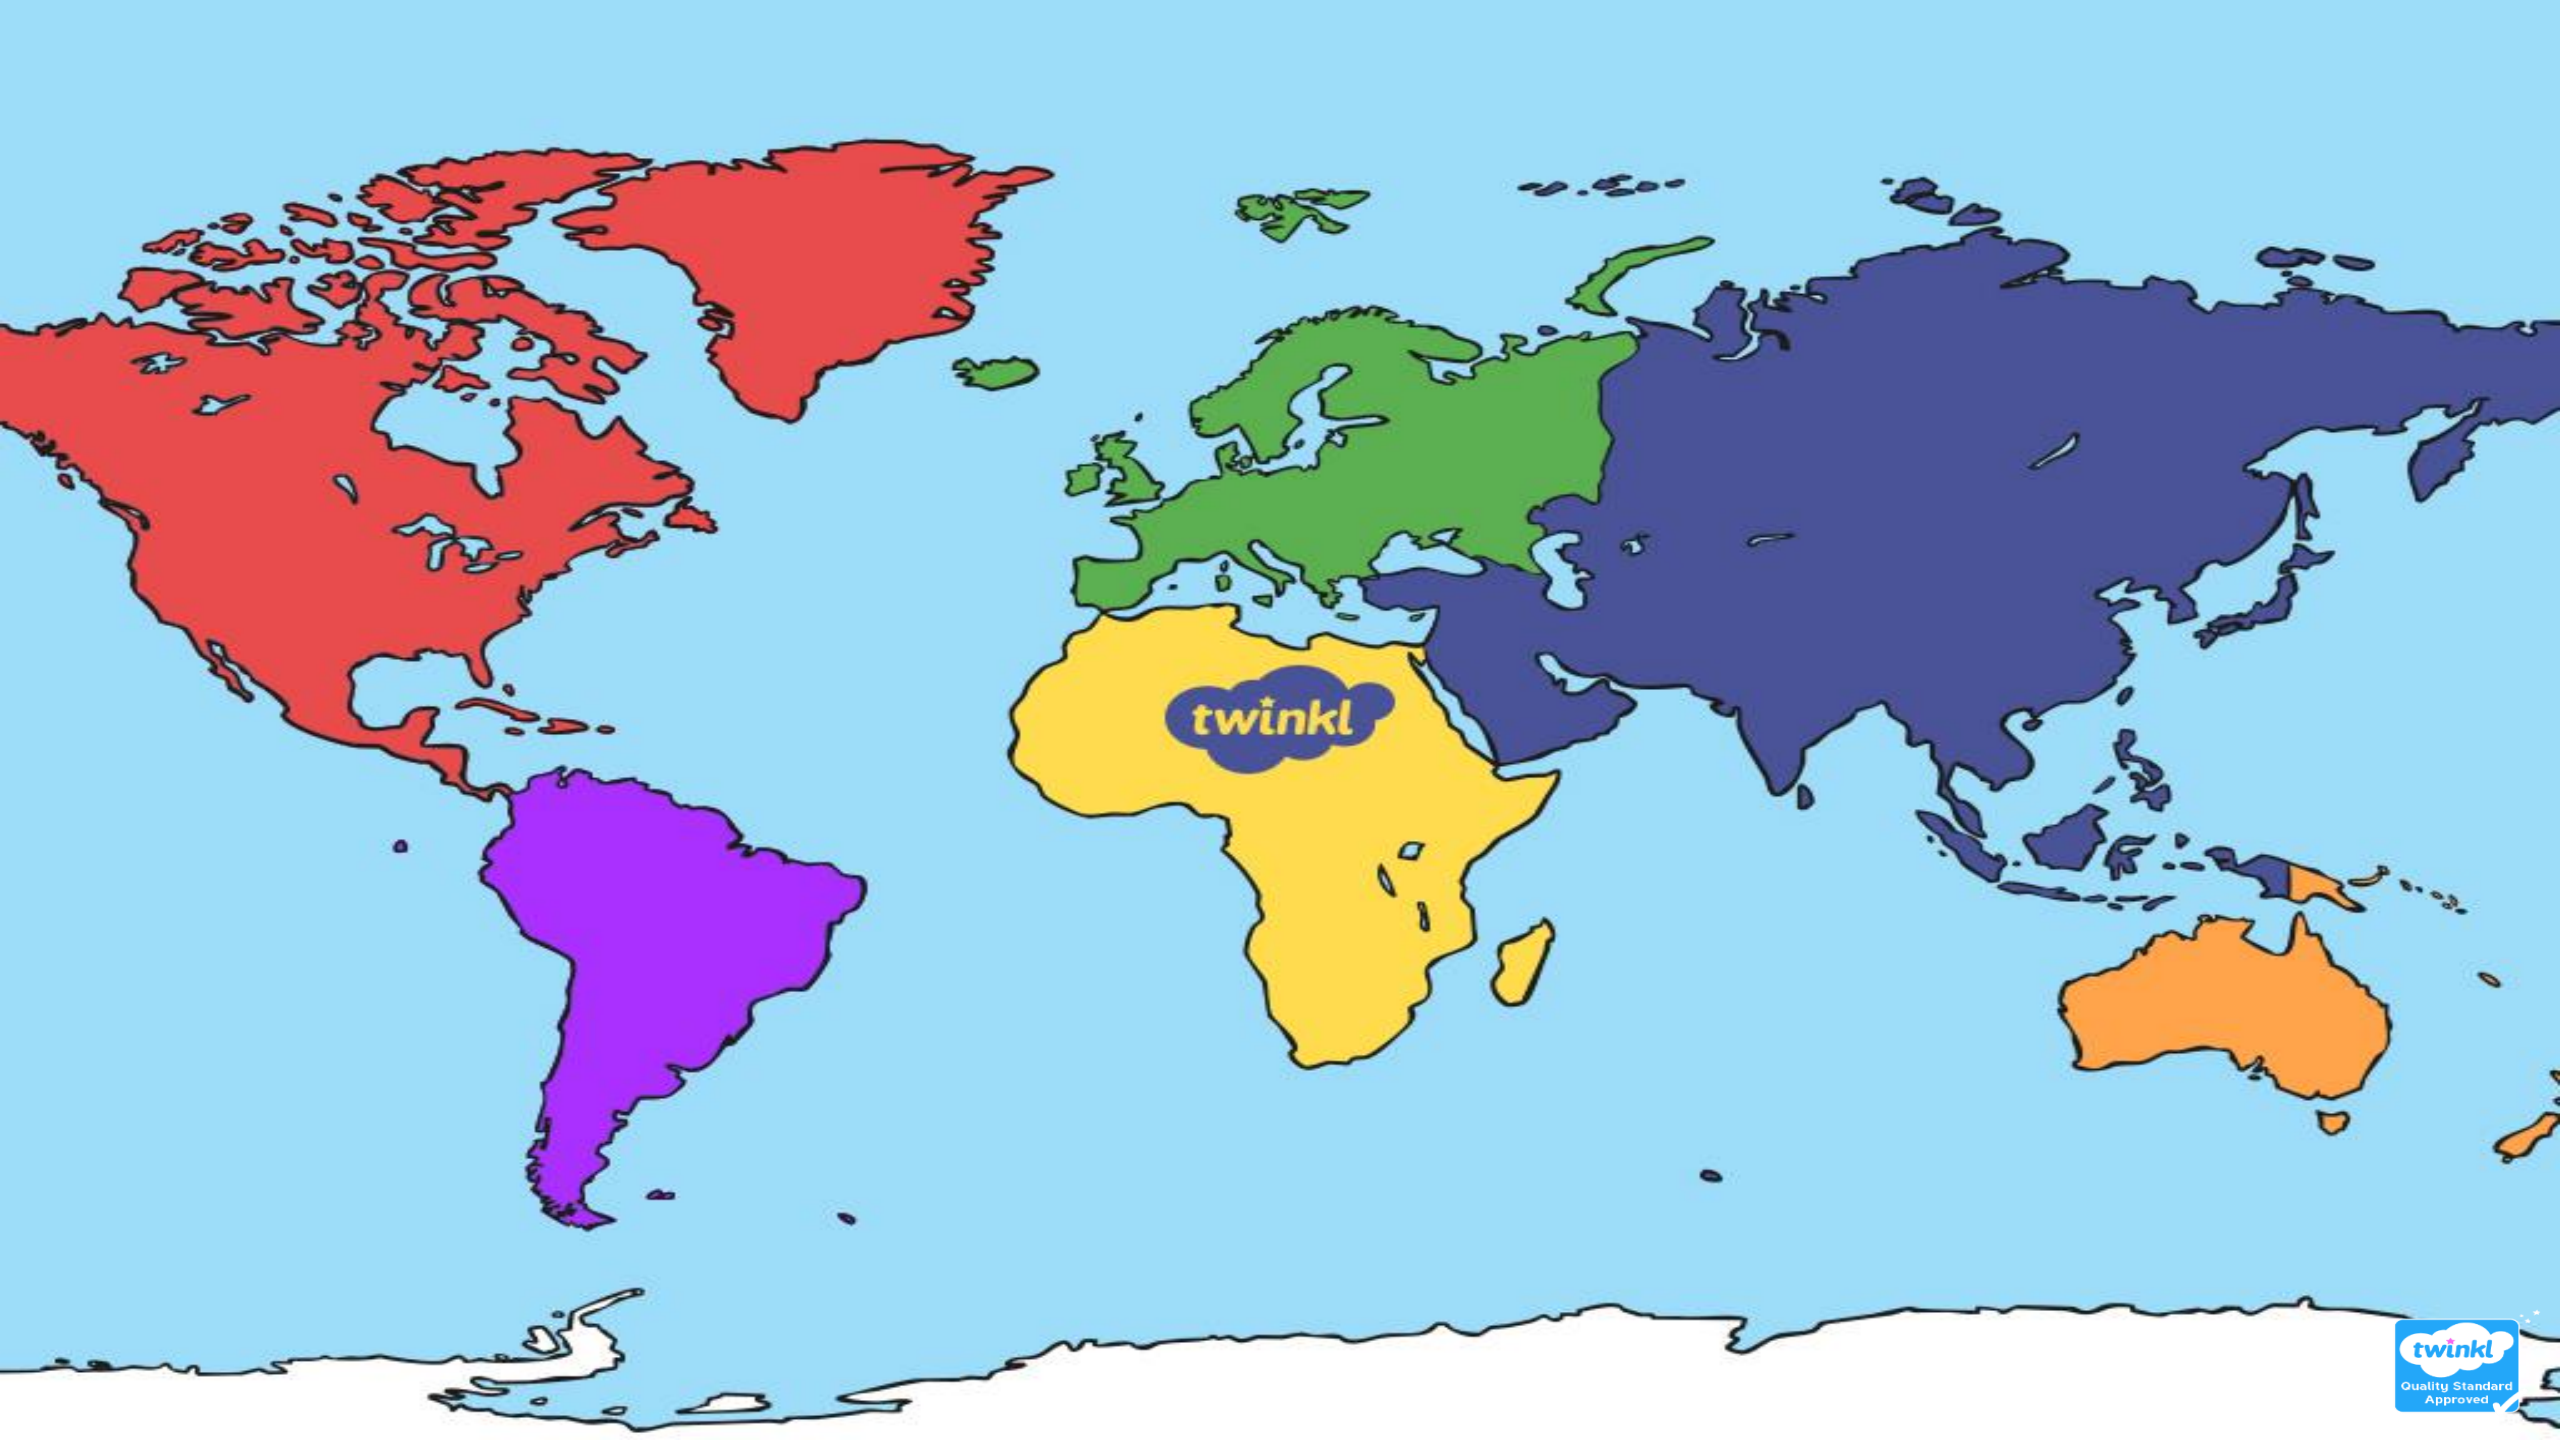

Australasia

Australasia is the smallest continent in the world.

- Australasia is sometimes called an island-continent.
- The Great Barrier Reef, the world's largest coral reef, is in Australasia.
- Australasian Aboriginal people first came to Australasia more than 50 000 years ago.
- The continent nearest to Australasia is Asia.
- Australasia has many unique animals including kangaroos, koalas and emus.

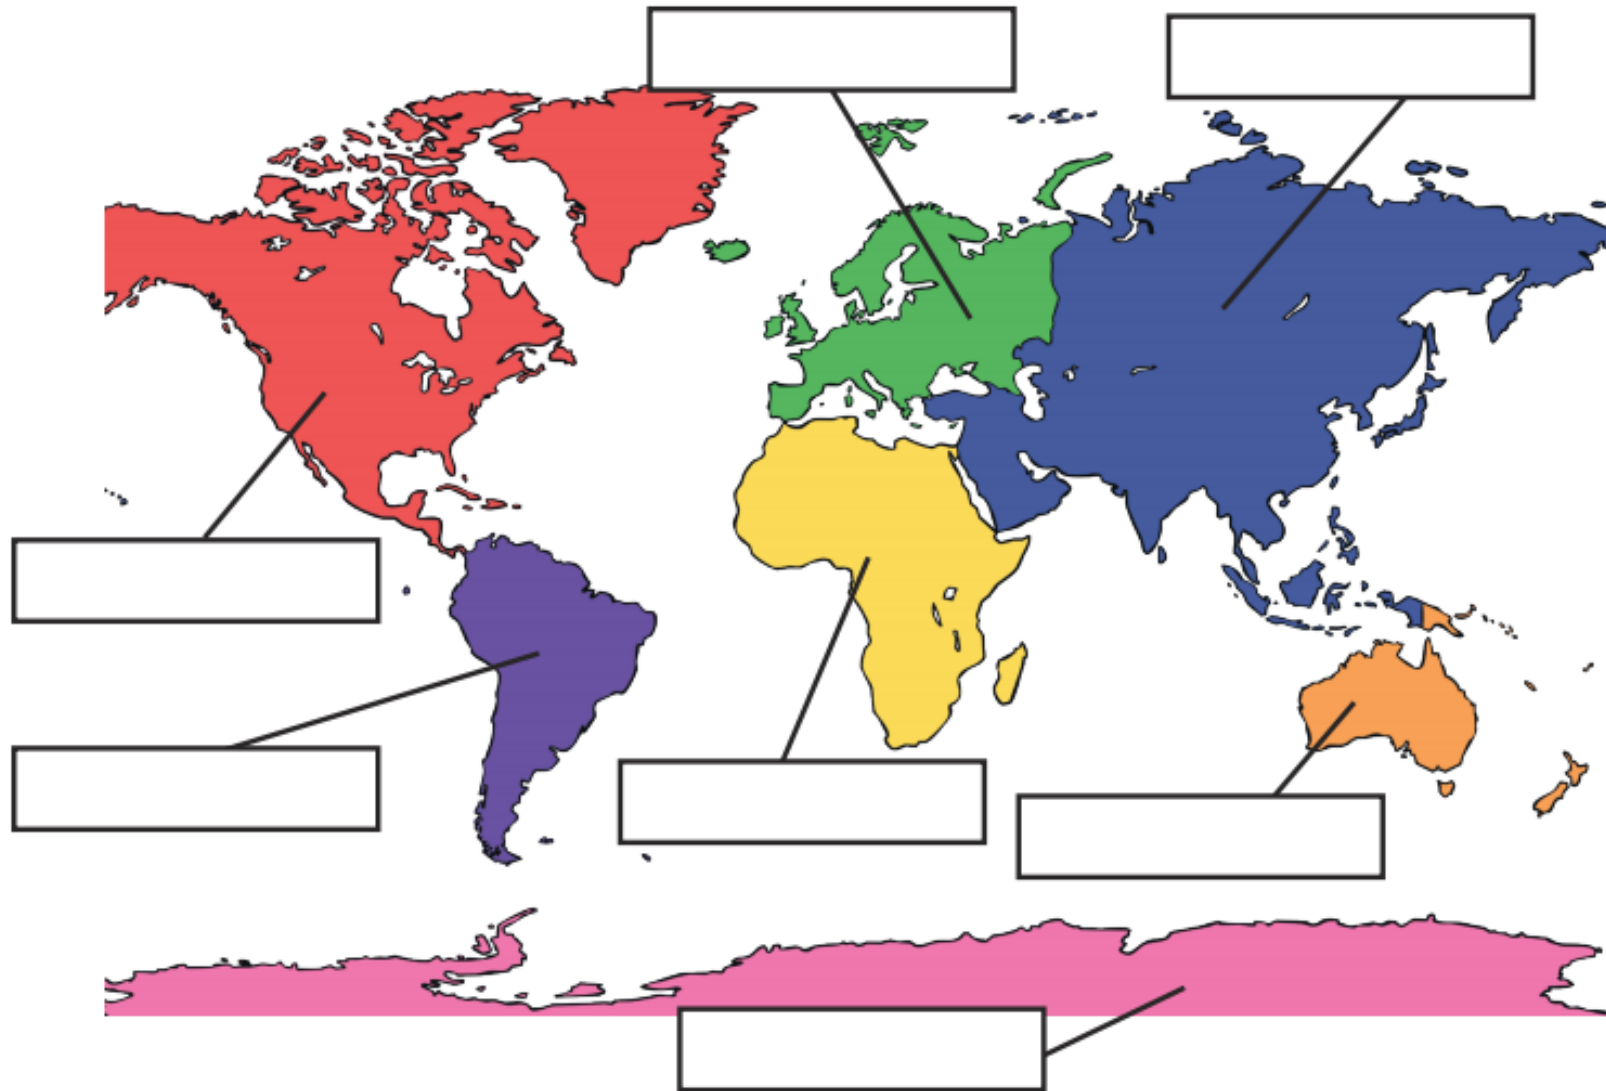

Where are the 7 continents in the world.

Can you locate all the 7 continents on the world map?

Task - Can you label the continents correctly?

The Seven Continents of the World

Word Bank

North America

South America

Computing

A big part of our Computing curriculum is learning how to code using a program called Scratch. This can be downloaded as a free APP  or played online at <https://scratch.mit.edu/>.

Use this time to explore the program, practise skills we have already taught you or have a play and find out something new.

I'll look forward to you showing me what you can do when you come back to school.

Computing Topic Challenge

Our new topic this term is 'Under the Sea'. With this in mind I thought I'd set you a Computing topic challenge.

Can you use the internet to research an Under the Sea animal and use the computer to present your information?

You could create a PowerPoint or type a fact sheet for example.

It would be great to see your work, please email them to me on k.witheykps@gmail.com

PE
