

MONDAY 27TH APRIL

THIS WEEK'S SEA-CREATURE FOCUS IS A SEA HORSE.

TWO SPECIES OF SEAHORSE CAN BE FOUND IN COASTAL WATERS OFF THE UK AND IRELAND – THE **SPINY SEAHORSE** AND THE **SHORT SNOUTED SEAHORSE**. HAVE YOU EVER BEEN LUCKY ENOUGH TO SEE ONE?

Collective Noun: Herd of seahorses

Seahorses are tiny fish that are named for the shape of their head, which looks like a...horse.

SEA-CREATURE OF THE WEEK

Female seahorse lays dozens, sometimes hundreds, of eggs in a pouch on the male seahorse's abdomen (tummy). Called a '**brood pouch.**' Depending on the seahorse species, the eggs remain in the brood pouch for up to 45 days, until the eggs are ready to hatch. The new baby seahorses, each about the size of an M&M, find other baby seahorses and float together in small groups, clinging to each other using their tails.

Habitat: Ocean
Classification: Fish
Diet: Carnivore (eats meat)
Body length: 2-35cm
Mass: 200g
Lifespan: 3 years

Camouflage not only helps the seahorse avoid predators, such as crabs and other fish, it helps it to be a predator, too. Feeding on small crustaceans, seahorses are super-skilled ambush predators. Rather than chasing their food, they wait, unnoticed, for prey to pass by. They then suck their unsuspecting victim through their tube-like mouth, before swallowing it whole.

To move forward through the water, seahorses use their dorsal fin (back fin).

To move up and down, they adjust the volume of air in a tiny pocket inside their body, called a '**swim bladder**'.

There are around **36 seahorse species**, which are found in tropical and temperate coastal waters where they swim upright among seaweed and other plants.

How does he become a
Rock Star?

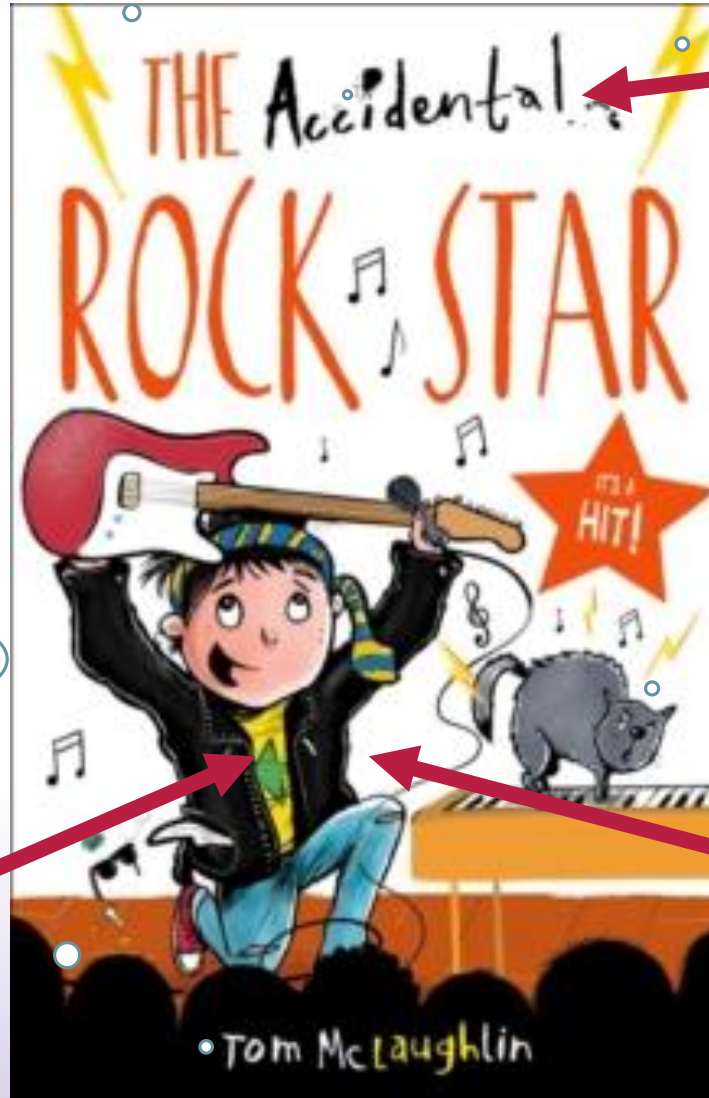

BOOK TALK – PREDICTION FOCUS

Here, I am going to model
how we can make predictions
and ask questions based on
the front cover of a text.
Look at the model closely
because you will be doing the
same on the next slide.

Question: What sort
of people are in the
audience?

The title words 'Rock Star' suggest that the
main character becomes very famous, rich
and popular as this what I think of when I
think about Rock Stars.

Question: Why is there
lightning on the front
cover?

Accidental – wasn't supposed to happen.
Prediction: the main character becomes a
rockstar when he shouldn't have been one.
This suggests that either he is actually bad
at music OR he is too young (picture clue).

Question: Is the cat a
Rock Star too?

The main character looks very young to
become a Rock Star (however Micheal
Jackson was famous by the age of 8 so it's
not impossible). Though in this case, the
fact that it says 'accidental' suggests that
this is a surprise.

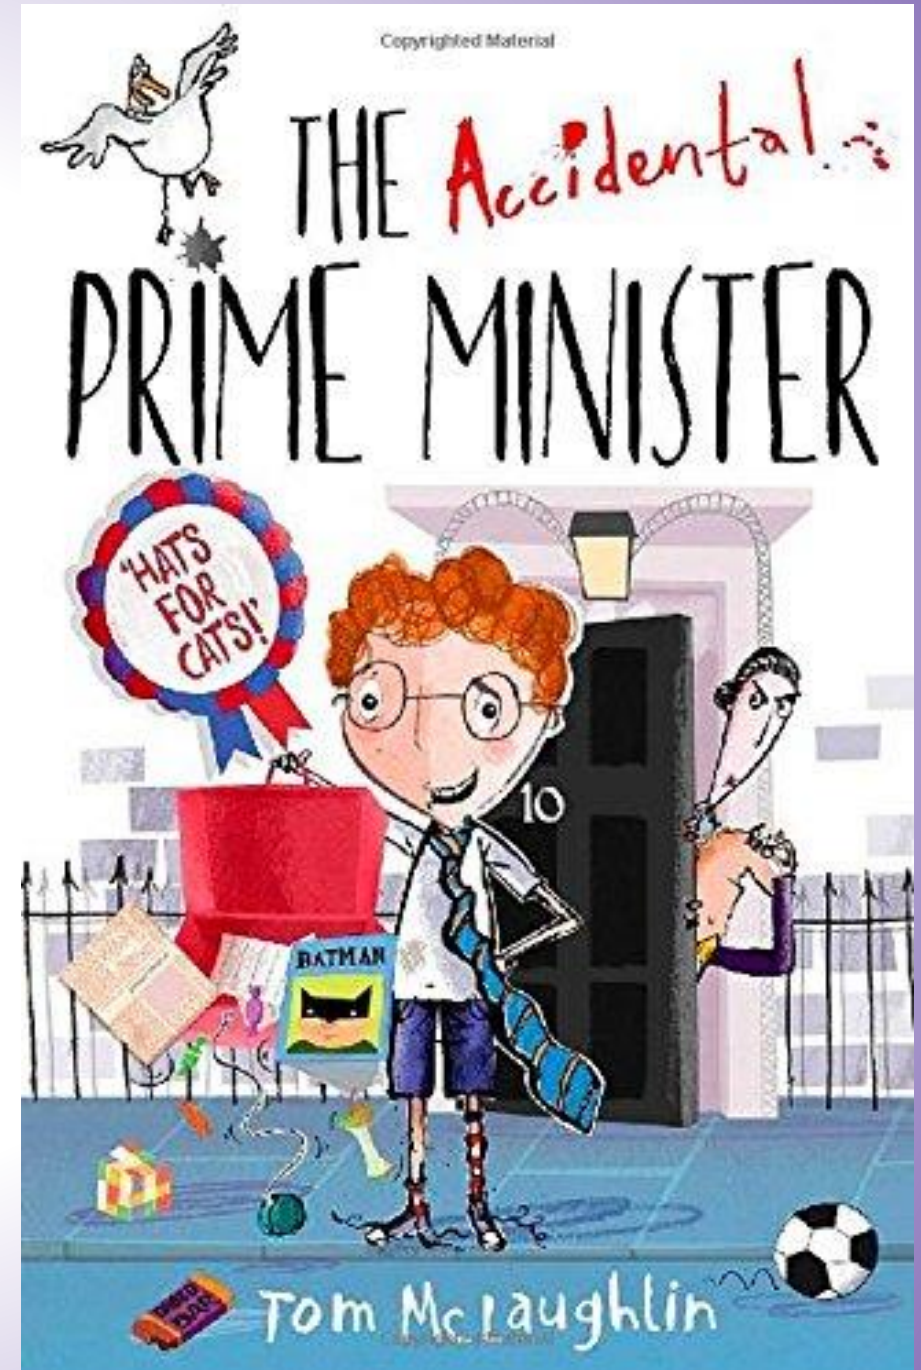

BOOK TALK - PREDICTION

Your job:

- 1). Make a MINIMUM of 3 predictions based on the front cover of the text. *If you want to make more than three, you are welcome to.*
- 2) Ask a MINIMUM of 4 questions about the text, based on the front cover. *Again, if you want to ask more than 4 that is also fine.*

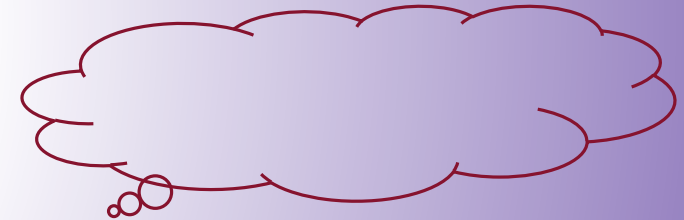

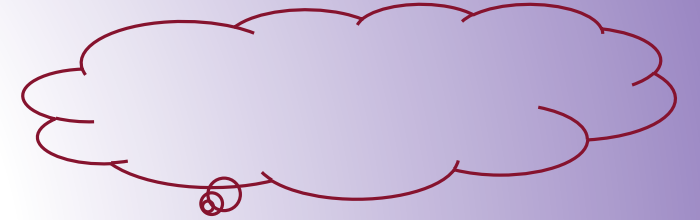

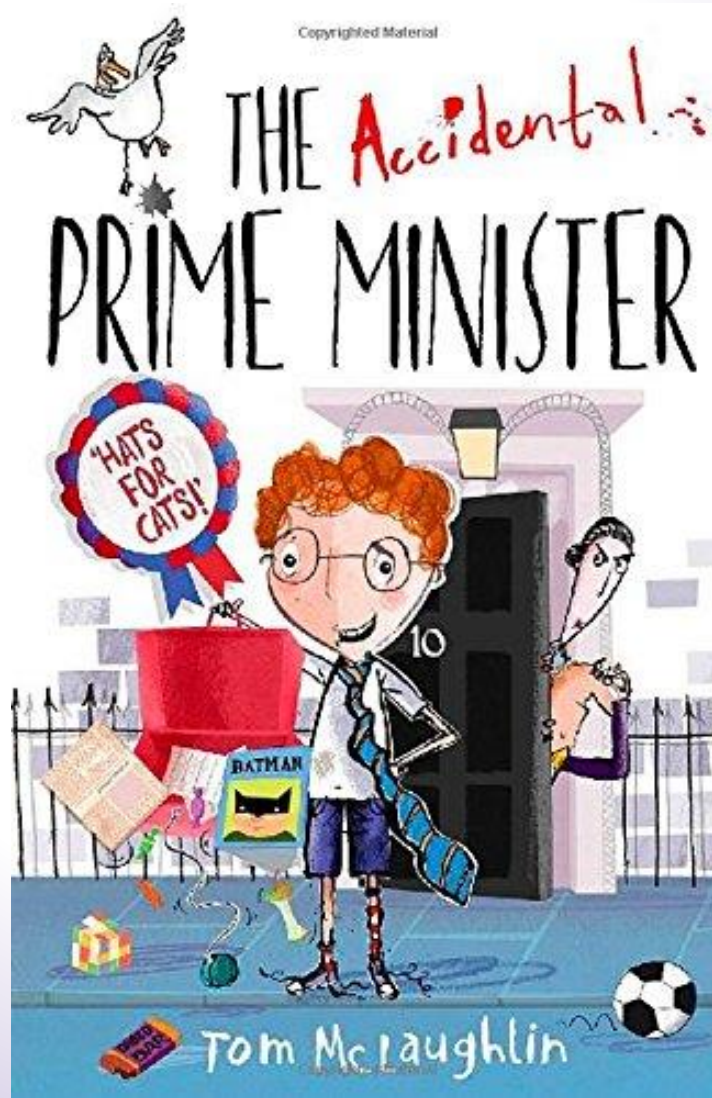

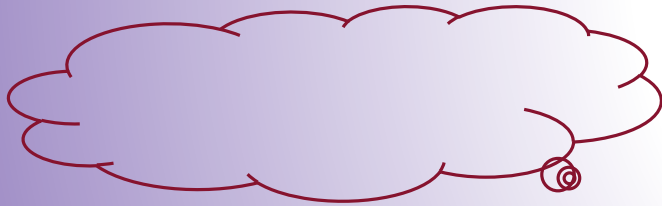

The next slide can be printed out for you to work on, or – alternatively – you can just add your questions/predictions around the text like I have.

Please feel free to write in your book if that is what you prefer.
